

Ignite IT Performance™

Cromwell Partners with Confio Software for Swiss and German Markets

June 14, 2006 - Boulder CO - Confio Software, the leading innovator of Wait-Time based application performance management and monitoring tools, today announced that Cromwell Business Resultancy has teamed with Confio to deliver Oracle and Java performance solutions to the Swiss and German markets.

Cromwell Business Resultancy AG is an international consulting company specializing in the conception and practical implementation of IT application systems. The smooth project implementation and the absolute functionality of the whole systems they install is the major factor that distinguishes Cromwell in the market. The focus of Cromwell Business Resultancy is to deliver first-call business solutions for human resources, business management and sales in BPM (Business Process Mgmt.), HRMS, ERP systems, project mgmt and disaster recovery.

As part of the Confio Software's Solution Partners program, Cromwell will deliver Confio Ignite™ for Oracle and Ignite™ for Java in Switzerland and Germany. The Igniter Suite of performance tools is the leading Wait-Time based performance management solution built to focus on the Oracle database and the applications that depend on it. Customers include the largest enterprise operators of Oracle databases worldwide. "We are honored to have an organization with depth of skills such as Cromwell team with us to expand our reach in their markets", stated Don Bergal, Confio Chief Operating Officer.

Ignite helps Cromwell in achieving their goals at customers, proves their precision in experience and guarantees both feasibility and reliability. "The Igniter Suite adds a new depth for helping customers optimize performance and ensure service levels", said Renzo Meneghetti, Sales Director of Cromwell. "These are specialized tools that have great potential for immediate impact." The partnership with Cromwell coincides with significant expansion for Confio in the European market as interest and success grows for the Ignite product line. For more details visit www.confio.com.

About Confio Software

Confio Software develops application performance management tools that are revolutionizing the way that databases and the applications that depend on them are monitored, managed and optimized. Built on industry best-practice Wait-Time methods, Confio Igniter Suite improves service levels and reduces costs for database and application infrastructure. Confio is based in Boulder, Colorado, with customers worldwide. For more information see www.confio.com
